

## **Crutchfield Dermatology announces new and amazing eyelash treatment, Lash Lift!**

*Crutchfield Dermatology announces new and amazing eyelash treatment, Lash Lift! This new service has been designed to add curl and definition to natural lashes for a dramatic, eye-popping beauty boost with little to no maintenance.*

EAGAN, Minn. ([PRWEB](#)) January 31, 2020 -- This new eyelash treatment gives eyelashes the appearance of longer, stronger lashes by adding curl and lift to the natural lashes. It is the perfect alternative to clients who can't wear lash extensions. "I love this service because we are able to offer it in only 30 minutes, and it lasts about six to eight weeks, and as you can see in the pictures, the results are nothing short of spectacular! Lashes can be long or short, but must be at least a 4mm to get the service", according to Dr. Charles E. Crutchfield III, M.D., who also recommends getting a lash tint along with a lift. "It will lift and darken your natural lashes and create a balanced effortless look for the patient who wants a natural 'woke up looking like this' appearance," he says.

Here's what one of their patient's had to say, "I went to the Crutchfield Dermatology and Medispa for a lash lift and tint. The staff was amazing. My lashes look great even without any makeup. I would totally recommend going here. If you get the lift - get the tint. I couldn't believe how much longer my lashes looked! I have gotten so many compliments, I've lost count!"

About Charles E. Crutchfield III, MD:

Charles E. Crutchfield III, M.D. is a graduate of the Mayo Clinic Medical School and a Clinical Professor of Dermatology at the University of Minnesota Medical School. He currently is the Medical Director of Crutchfield Dermatology in Eagan, (serving the greater Minneapolis-St. Paul area), Minnesota. Dr. Crutchfield is an annual selection of the "Top Doctors" issue of Mpls. St. Paul magazine. He is the only dermatologist to have been selected as a "Best Doctor for Women" by Minnesota Monthly magazine since the inception of the survey. Dr. Crutchfield has been selected as one of the "Best Doctors in America," an honor awarded to only 4% of all practicing physicians. Dr. Crutchfield is the co-author of a children's book on sun protection and dermatology textbook. He is a member of the AQA National Medical Honor Society, an expert consultant for WebMD and CNN, and a recipient of the Karis Humanitarian Award from the Mayo Clinic School of Medicine. Dr. Crutchfield was also given "first a physician" award, Healthcare Hero, 100 most influential, and one of the Top 100 African –American Newsmakers in the United States by TheGrio, an affiliate of NBC News.
