Crutchfield Dermatology
Look good and feel great with beautiful skin.
“Our goal is to be the Nordstrom’s of skin care.”

“I personally see every patient who visits our clinic. As a board certified Dermatologist, I am a physician with years of specialized training and education exclusively in skin. This is the type of 5-star care and service that our patients expect, deserve and receive. I treat every patient the way I would want to be treated: with courtesy, dignity and respect. I carefully listen to their skin-care concerns and offer a variety of options including a treatment plan that I believe will give them the best results. When you combine my expertise, experience and skill with one of the finest medical staffs in the country, you definitely have a winning combination. To further demonstrate our commitment to excellence, we are the first dermatology office in Minnesota to have electronic medical records and the first dermatology clinic in the United States to offer a Wi-Fi reception area for the convenience of our patients. Also, please take a moment to explore our award winning website.

My philosophy is simple... **Quality Matters**. After all, at Crutchfield Dermatology our goal is to make you look good and feel great with beautiful skin.”

Charles E. Crutchfield III, M.D.

Botox® Cosmetic and Restylane Treatments

Have you ever looked in the mirror and been surprised at your own reflection? Inside you feel youthful, vibrant and fresh, yet your skin is telling you that you may look older than you feel. Unlike any other time in history, we are now able to dramatically reverse the signs of aging. At Crutchfield Dermatology, BOTOX® Cosmetic, Restylane, Microdermabrasion, and Mesotherapy are just a few of the treatments we offer that can make your reflection better represent your beautiful inner-self.

Dr. Crutchfield is the Twin Cities' leading and most experienced provider of BOTOX® Cosmetic and Restylane treatments for facial rejuvenation and wrinkle reduction. With his experience and studied knowledge of the skin’s anatomy and physiology, he personally performs all BOTOX® Cosmetic and Restylane treatments. Dr. Crutchfield strongly believes that this is the type of ‘5-Star’ service you expect and deserve.

Here is what our patients are saying……
"Over the past 6 years I've had BOTOX® Cosmetic treatments in Los Angeles, New York, Scottsdale and Edina. The friendly and knowledgeable staff, the warm office setting, professionalism, and fantastic results that I got a Crutchfield Dermatology were unmatched by any other clinic that I have ever visited. I am thrilled that the treatments are done personally by Dr. Crutchfield. I also like the fact that Dr. Crutchfield trained at the Mayo Clinic and that he is a Board Certified Dermatologist. During my initial consultation, Dr. Crutchfield really took his time and answered all my questions. I never felt rushed or pressured to have the treatment, like I did at other clinics. After visiting Crutchfield Dermatology, I wouldn't trust anyone else with my face. In fact, I fly from Arizona twice per year for Dr. Crutchfield to do my BOTOX® Cosmetic and Restylane treatments!" - Pat S., Phoenix, AZ

*As an Academic Dermatologist, Dr. Crutchfield is also aware of the many new treatments available and in development for wrinkle filling, smoothing and reduction. He will provide them when appropriate, always making sure his patients are receiving the best “state-of-the-art” treatments available. Visit our website to see the before and after photographs of the many happy patients we have helped.

Would you like to have Gorgeous Lips?
The Best in Professional Skin Care Products

Neostrata® and SkinCeuticals™
At Crutchfield Dermatology we use NeoStrata® professional peel products, the #1 recommended prescription-strength skin care brand by dermatologists worldwide. They are uniquely formulated with alphahydroxyacids (AHAs), polyhydroxy acids (PHAs) and bionic acids. We also use SkinCeutical™ products, dedicated to providing quality skin care products that are backed by science. Both Neostrata® and SkinCeuticals™ products are beneficial in helping to improve the visible signs of aging or sun damaged skin and for the combined treatment of various dermatological conditions including acne, dry skin, rough skin and hyperpigmentation, dark spots and melasma.

We also offer a full line of high quality skin care products for purchase online in our skin-care web store at www.crutchfielddermatology.com/dermatologystore.

Javani™ Ultra-Moisturizing Medical Facial and Skin Care Program ... taking ordinary microdermabrasion to the next level.
Javani is the ancient Hindi word for radiant youth. Javani™ Skin Rejuvenation products diminish the signs of aging and reveal the youthful radiance of your skin. The unique formulas infuse natural collagen with antioxidants, vitamins, and essential oils leaving skin soft, supple, and amazingly beautiful. After an exfoliating microdermabrasion, the Javani™ skin care program ultrasonically infuses the rich Javani™ products into the skin. This process takes away all superficial lines and wrinkles, leaving the skin silky smooth for days. You will find yourself repeatedly touching your face with pleasurable disbelief.

Remove fat & cellulite...without surgery.

Mesotherapy and Lipodissolve
After being used in France for over 50 years, there is finally a new method available to doctors in the United States that may help you get rid of fat and cellulite without surgery. This new procedure is called Mesotherapy, a technique where small amounts of medications are injected into the target areas of the skin. Mesotherapy can be used to smooth out the "cottage cheese" dimpling on the thighs and buttocks known as cellulite. 'Lipodissolve’ is a type of Mesotherapy that is used to melt away unwanted areas of adipose (fat). Lipodissolve works like liposuction but without the surgery. It is commonly used to reduce and sculpt the flanks (love handles), the lower tummy "pouch" just below belly button, upper hips, and upper-outer thighs (saddle bags), double chins, and jowls. Please visit our website for many before and after photographs.

Treating Excessive Sweating
One of the most common yet least talked about conditions is “excessive sweating”, clinically known as hyperhidrosis. This condition can include excessive sweating under the arms, on the palms of the hands and/or bottoms of the feet and is often socially challenging for those affected. Make an appointment with us today so you can keep your shirts dry and shake hands with confidence.
Acne Treatment Center of Excellence

The treatment of acne is one of our specialties. The teenage years are full of many changes and challenges. Even a mild case of acne can cause an additional and unnecessary level of self-consciousness. At Crutchfield Dermatology we’re aware of the concerns and emotions that come with troublesome and unsightly skin conditions.

We have many effective treatments for acne, including the new Aramis Laser. We will design an acne-clearing program that’s just right for you.

Our goal is to make your skin “crystal clear and glassy smooth” so you can resume a healthy, confident life.

Please visit our website to see the dramatic before and after photo library of acne patients who have been transformed from shy and self-conscious to bright-eyed and confident.

Psoriasis Treatment Center of Excellence

Crutchfield Dermatology is one of the premier psoriasis treatment centers in the country.
As a Clinical Associate Professor of Dermatology at the University of Minnesota, Dr. Crutchfield has extensive experience in the treatment of psoriasis including topical medications, phototherapeutic measures (narrow band-UVB, laser), traditional systemic anti-psoriatic medications and the new generation of biologic agents.

"Dr. Crutchfield and his staff are extremely caring and leave nothing to chance in their psoriasis diagnosis and treatment plan. As a securities officer and volunteer firefighter, my hands are essential to my work and I was frustrated by the limited time and treatment options I received at other dermatology offices. From the moment I stepped into Crutchfield Dermatology I instantly realized that things at the clinic were different. Dr. Crutchfield knew what we were dealing with right away and he established a complete psoriasis treatment program that has changed the quality of my life". - Ken W., St. Paul

Dr. Crutchfield conducts psoriasis research (he has a Master's Degree in Molecular Biology) and has recently received a United States Patent on one of his psoriasis treatment medications. In addition to lecturing on the subject locally and nationally, Dr. Crutchfield is often teaching the subject of psoriasis to medical students, dermatology residents and physicians. He also treats many Twin Cities’ health care providers who are personally affected by psoriasis. Visit our website to see the hundreds of psoriasis treatment success story photographs.
Laser Surgery
We use lasers to treat a variety of skin conditions including port wine stain birthmarks, unwanted facial veins, facial redness, wrinkles, warts, tattoos, and unwanted hair. Dr. Crutchfield is a skilled laser surgeon who has performed over 5,000 laser surgeries. Please visit our website for more details and to see the many before and after photographs of the happy patients we’ve treated.

Laser Hair Removal
We combine LightSheer Diode Hair Removal Laser System, the world recognized gold standard in laser hair removal, with our team’s collective 50 years of award winning experience. As a result, Crutchfield Dermatology provides the highest quality laser hair treatments available anywhere in the Twin Cities.

Skin Examinations and Mole Checks
Did you know that a comprehensive skin examination is an important part of maintaining your overall good health. It’s even more important if you have a family history of skin cancer. Dr. Crutchfield is a pioneer in the use of the Epiluminescence Skin microscope (Dermatoscope), a revolutionary tool that assists in mole checks and skin examinations. We’d be happy to schedule a skin examination for you or a loved one today.

Pediatric and Adolescent Dermatology

We treat all of our younger patients with extra-special care. We know that a visit to the doctor can be scary for children and emotional for their parents.

If your little one has come down with a pesky itch, is pained by a mysterious rash or has a chronic skin condition, we will ensure every effort is made to make the experience gentle, friendly, and effective.

Ethnic Skin Concerns

Dr. Crutchfield specializes in the treatment of many conditions unique to persons of color. He also teaches other dermatologists about these conditions. He publishes and lectures, locally, nationally, and internationally on the dermatologic approaches for skin conditions in patients of color. For additional information please visit our website www.crutchfielddermatology.com/treatments/ethnicSkin/
Phototherapy Center

At Crutchfield Dermatology we have a state-of-the-art phototherapy center for treating a wide variety of skin conditions including, psoriasis, eczema, itching, and vitiligo.

Webstore

We have hundreds of fantastic skin care products available to purchase online. Sign on to www.CrutchfieldDermatology.com/DermatologyStore and enjoy the convenience of shopping for all your dermatology products from home.

Our Staff

At our clinic the staff really makes the difference. The reception staff are knowledgeable and friendly. The Spa staff are some of the most skilled in the country. The nursing staff are all members of the prestigious Dermatology Nurses Association, a distinction found exclusively at Crutchfield Dermatology to provide you with the best dermatologic care available.
Dr. Crutchfield’s dermatology expertise has been recognized internationally. In addition to numerous honors and awards, he is regularly featured in both print and broadcast media. For current information and to view streaming videos of his media appearances, please visit www.CrutchfieldDermatology.com/news.
