### PLEASING NONSURGICAL RESULTS

In the case of this 57-year-old patient, Dr. Crutchfield employed a combination of treatments in her nasolabial folds, forehead, cheeks and lips to produce a dramatic and satisfying effect. This patient told Dr. Crutchfield she was attending her 40-year high-school reunion and wanted to look her best. "She was thrilled with her results," says Dr. Crutchfield.

### NATURAL, FULL, BEAUTIFUL LIPS

Wanting to enhance her naturally very nice lips, this 32-year-old came to Dr. Crutchfield for some guidance. "She told me she wanted her lips to look fuller but also wanted them to look very natural. The results we provided were extremely pleasing and yet very natural-looking. After all, I want my patients to look good and feel great with beautiful skin."

#### ABOUT DR. CRUTCHFIELD

##### DESCRIBE YOUR SKIN CARE PHILOSOPHY.

Less is more. I like to do lots of little things that create very dramatic and satisfying results. When it comes to cosmetic dermatology, I tend not to emphasize any one particular treatment. I like to carefully listen to my patients and find out what bothers them. I then create a program that blends several techniques to give them the results they desire. As a Clinical Associate Professor of Dermatology, I teach to strengthen my specialty and keep my skills sharp. As a perfectionist, I am constantly learning to provide the highest quality of care I can to my patients.

##### WHY DO YOU COMBINE MODALITIES?

To achieve dramatic results, it is not really about one procedure or product. I like to blend lots of different treatments and products in order to achieve patients' desired results, just like one would use many different words to construct a beautiful poem.

##### HOW WOULD YOUR PATIENTS CHARACTERIZE YOU?

Time and time again patients say, "I really trust you. I have always felt that you have given me your best recommendations and I don't feel like I am trying to be up-sold on procedures or products I don't want or need." Many of my patients have expressed that they are so pleased that I always give my honest opinion and a very fair, appropriate recommendation to achieve their results. I believe "less is more" and that approach gives our patients beautiful and natural-looking results. My patients' friends should have no idea they've had anything done, only that they look fantastic. In fact, I like to say their friends should be "enviously confused."

##### WHAT MAIN GOAL DO YOU HAVE FOR YOUR PATIENTS ON A SKIN CARE PROGRAM?

My goal is to provide the highest-quality skin care in a gentle, natural manner so patients look confident, refreshed and content. I don't want my patients to look different than their age, just great for their age.
